

African Americans Identified in Holy Trinity Parish Marriage Records, 1795-1869 (alphabetical)

Contents Note:

Column 1 gives the names of individuals identified as African American in the HT marriage records

Columns 2 and 3 give the date of the marriage – month, day, and year

Column 4 gives the volume and page of the entry in the marriage records

Column 5 gives the description of the individual in the marriage records

Holy Trinity's sacramental registers were compiled over many years by a succession of priests at Holy Trinity. Their handwriting can be hard to read, and some names were misspelled. We apologize for the ensuing errors in this database. Many entries in the marriage records do not indicate the race or condition of the individual mentioned. Consequently, the database does not include the names of all the African Americans married at Holy Trinity during this period, only those specifically identified as such with descriptors like "slave," "col'd," "free," etc.
